

MD. ABU AHSAN

Fullstack Web Developer

PERSONAL STATEMENT

I am a Full-Stack Web Developer with strong design and coding expertise, capable of translating client requirements into innovative, scalable, and high-quality web applications.

EXPERIENCE

Techpark IT, Location — Mirpur -06

October 2023 - Present

I am a Software Engineer and Assistant Project Manager with expertise in full-stack web development using PHP, Laravel, Vue.js, and MySQL. I focus on delivering scalable, robust, and efficient web applications while supporting project planning, coordination, and successful delivery.

CCN Infotech Ltd, Location — Bashundhara R/A

June 2022 - September 2023

I spent a year as a junior software engineer, where I gained valuable experience working effectively with both front-end and back-end technologies like html,css,javascript,php,laravel.

Project X Ltd, Location — Khilkeht,nikunja 2

September 2021 - May 2022

I worked almost a year as a backend developer, where I learned how to effectively use front-end and back-end technologies and helped create scalable and all-encompassing solutions with html,css,javascript,php and laravel.
